

## **Zeitschriftenbeiträge – 1997**

**Atteneder M, Huber K, Heger M, Frank H, Gabriel H, Baumgartner H, Koller J, Wollenek G, Strametz M, Wimmer M.** (Art) Aortic coarctation--long-term follow - up in adults. *Z. Kardiol.* 1997, 86:50-55

**Dölken G, Franklin J, Koch P, Tesch H, Worst P, Rüffer U, Adler M, Diehl V, Boissevain F, Sieber M, Müller U, Lathan B, Löffler M, Wolf J, Schalk P, Engert A, Pfreundschuh M.** (Art) BEACOPP - a new intensified hybrid scheme for advanced stage Hodgkin`s disease is more effective than COPP-ABVD - interim analysis of the HD9 study of the German Hodgkin Study Group (GHSg). *Onkologie* 1997, 20:abstr. 389

**Schwenke M, Kiefer T, Dölken G, Kalusche E-M, Schüler F, Hutzschenreuter U.** (Art) Circadian variations of circulating CD34+ cell numbers after chemotherapy plus G-CSF in patients with breast cancer. *Onkologie* 1997, 20:abstr. 344

**Dölken G, Hirt C.** (Art) Comparative molecular and quantitative analysis of circulating t(14;18)-positive cells in patients with follicular lymphoma in long term remission after radiotherapy. *Blood* 1997, 90

**Dölken G, Kiefer T, Schüler F.** (Art) Detection of K-ras point-mutations by real time quantitative PCR using a double labeled fluorogenic probe and multiple allele specific primers. *Onkologie* 1997, 20:abstr. 419

**Enzian J, Hasenclever D, Mende W, Hiller E, Geilen W, Pflüger H, Loeffler M, Krüger B, Fuchs R, Nisters-Backes H, Müller H-P, Hinkelbein H, Bartels H, Rohloff R, Diehl V, Kürten H, Gaßmann W, Sieber M, Oertel W, Hinterberger W, Cartoni C, Sauer R, Pfreundschuh M, Kutzner K, Gerhartz H, Tesch H, Petsch S, Kirchner W, Dölken G, Schalk K, Rühl U, Loos U, Hagen-Aukamp U, Franklin J, Pfab R, Koch P.** (Art) Dose-response relationship of complementary radiotherapy following four cycles of combination chemotherapy in intermediate-stage Hodgkin`s disease. *J. Clin. Oncol.* 1997, 15:2275-2287

**Cartoni C, Brosteanu O, Hiller E, Sieber M, Mandelli F, Pfreundschuh M, Koch P, Rüffer U, Diehl V, Engert A, Dölken G, Tesch H, Dühmke E, Cerny T, Lieberz D, Georgii A.** (Art) Final results of a randomized trial (HD5) comparing alternating COPP+ABVD versus rapidly alternating COPP+ABV+IMEP followed by extended field radiation in intermediate stage Hodgkin`s Disease (HD). *Onkologie* 1997, 20:abstr. 760

**Krahl R, Friedrich T, Pönisch W, Leiblein S, Helbig W, Freund M, Kubel M, Dölken G, Schwarzer A, Schultze W, Lehmann T.** (Art) Mobilization of peripheral blood progenitor cells in patients with chronic myeloid leukemia in chronic phase: IC 5 days versus IC 3 days. *Onkologie* 1997, 20:abstr. 711

**Wagener C, Jung R, Neumaier M, Ahmead-Nejad P, Wimmer M, Gerhard M.** (Art) Quality management and influential factors for the detection of single metastatic cancer cells by reverse transcriptase polymerase chain reaction. *European Journal of Clinical Chemistry and Clinical Biochemistry* 1997, 35(1):3-10

**Dölken G, Dölken L.** (Art) Quantitative determination of t(14;18)-positive cells by real-time quantitative PCR using a double labelled fluorogenic probe. Blood 1997, 90

**Dölken L, F.Schüler G.** (Art) Real time quantitative PCR for the detection of t(14;18) carrying cells using double labeled fluorogenic probes. Onkologie 1997, 20:abstr. 531

**von Specht B U, Haberstroh J, Wagner G, Kiefer T, Blum U.** (Art) Renal artery occlusion model in dogs for the evaluation of thrombolytic agents. J. Invest. Surg. 1997, 10:183 - 188
