

Forschungsbericht 2013

Klinik für Neurochirurgie

Artikel

Krähenbühl AK*, Baldauf J, Gaab M, Schroeder H. *Endoscopic temporal ventriculocisternostomy: an option for the treatment of trapped temporal horns. (Originalartikel)*
JOURNAL OF NEUROSURGERY-PEDIATRICS. 2013. (In Press)

Refaee EAE*, Baldauf J, Balau V, Rosenstengel C, Schroeder HWS. *Is it safe to sacrifice the superior hypophyseal artery in aneurysm clipping? A report of two cases. (Originalartikel)*
JOURNAL OF NEUROLOGICAL SURGERY. PART A, CENTRAL EUROPEAN NEUROSURGERY. 2013; 74 Suppl 1:e255-60. (In Press)

El Refaee E*, Langner S, Baldauf J, Matthes M, Kirsch M, Schroeder H. *Value of 3-dimensional high-resolution magnetic resonance imaging in detecting the offending vessel in hemifacial spasm: comparison with intraoperative high definition endoscopic visualization. (Originalartikel)*
NEUROSURGERY. 2013; 73(1):58-67.

Fleck SK*, Wallaschofski H, Rosenstengel C, Matthes M, Kohlmann T, Nauck M, Schroeder H, Spielhagen C. *Prevalence of hypopituitarism after intracranial operations not directly associated with the pituitary gland. (Originalartikel)*
BMC ENDOCRINE DISORDERS. 2013; 13(1):51.

Hickmann A*, Langner S, Kirsch M, Baldauf J, Müller C, Khaw A, Schroeder H. *The value of perfusion computed tomography in predicting clinically relevant vasospasm in patients with aneurysmal subarachnoid hemorrhage. (Originalartikel)*
NEUROSURGICAL REVIEW. 2013; 36(2):267-78.

Kühn J*, Hernando D, Meffert P, Reeder S, Hosten N, Laqua R, Steveling A, Ender S, Schröder H, Pillich D. *Proton-density fat fraction and simultaneous R2* estimation as an MRI tool for assessment of osteoporosis. (Originalartikel)*
EUROPEAN RADIOLOGY. 2013; 23(12):3432-3439.

Oberstadt M*, Bien-Möller S, Weitmann K, Herzog S, Hentschel K, Rimmbach C, Vogelsang S, Balz E, Fink M, Michael H, Zeden J, Bruckmüller H, Werk A, Cascorbi I, Hoffmann W, Roßkopf D, Schroeder H, Kroemer H. *Epigenetic modulation of the drug resistance genes MGMT, ABCB1 and ABCG2 in glioblastoma multiforme. (Originalartikel)*
BMC CANCER. 2013; 13(1):617.
