International Hands-on Course on FULL  
HD Endoscopic Neurosurgery

September 26<sup>th</sup> – 28<sup>th</sup>, 2018

Departments of Neurosurgery and Anatomy  
Greifswald, Germany

## INVITATION

Dear colleagues,

It is a great pleasure to invite you to our practical hands-on training course for cranial endoscopic neurosurgery in Greifswald. The course is designed for neurosurgeons who have no experience with endoscopic neurosurgery as

well as for surgeons who have already started with endoscopy and want to improve their knowledge and skills. Therefore, ample time will be provided for hands-on dissection in cadaver specimens. After a theoretical introduction to the topic, training in various neurosurgical interventions including ventricular endoscopy, endoscope-assisted skull base surgery and endonasal skull base surgery under HD-visualization will be given.

After the course participants should be able to discuss the latest advances and controversies in endoscopic and endoscope-assisted neurosurgery.

I look forward to welcoming you in Greifswald in September 2018.

Henry W. S. Schroeder
